

Building Management and Works

We lead the planning, delivery and management of a property portfolio that supports the delivery of government services to the community; including the delivery of new building works and maintenance programs for existing buildings and office accommodation.

State Revenue

We administer revenue laws and grant and subsidy schemes in a fair and efficient manner for the community.

Government Procurement

We lead a whole-of-government approach to the procurement of goods and services to efficiently meet the business needs of agencies, manage risk and deliver value-for-money from public sector procurement.

Strategic Projects
